14 April 1947

*old + filed*  
*AUG 14 1947*

TO: Chief, Foreign Branch M

ATTENTION: C J

FROM: Security Control Division, Austria

SUBJECT: DURST, Joseph, alias WIENINGER

1. The attached MIS interrogation report on Subject is thought to be of interest because it contains information on several personalities whose names appeared frequently in the SYMPHONY Project and who, during the war, figured prominently in GIS activities in the Middle East on which our headquarters has maintained extensive records. According to SYMPHONY report LXI-295, DURST was working for the British I.S. as of 10 June 1946. In a previous report, LXI-257, it was claimed that DURST was working for the American intelligence. There is nothing in the attached interrogation report to substantiate these statements.

2. Following his arrest, DURST was first interrogated by CIC Vienna. The CIC report, dated 7 October 1946, has not been copied, since it does not contain any information not presented in the MIS report. Appendix D to the CIC report is transmitted herewith, however. Appendix D contains traces on personalities mentioned in the DURST report which were found by CIC in the files of the Austrian Political Police (Staatspolizei). The referat in the Austrian Political Police which compiles these records does not have access to any AST records. It is headed by Hans (Johann) MARSALLEK. Since, as is known to you, the Austrian Political Police is Communist-dominated and serves as an instrument of the Russian Occupation Forces, it can be assumed that any information in these police records is available to the Russians. Two CIC reports on the activities of Referat 4 are being copied for transmittal to you.

3. Attention is directed to paragraphs in Appendix D on WENDER, KLATT and LUKAWIENSKI (Lukawiecki in our records). We have received confirmation from other sources that MAHR and KONITZ are now working for the British I.S., as is stated in the STAPO references.
